INTRODUCING THE BLUE CUBE BRIGHTEN YOUR RECOVERY

COLD + AIR COMPRESSION

PRODUCT CODE: BCAIR

Circulating Cold Water Therapy Ice Machine by Blue Cube – for Knee, Elbow, Shoulder, Back Pain, Swelling, Sprains, Injuries, Recovery – Portable with Universal Pad.

The Blue Cube Cold Therapy Machine is a massaging ice therapy machine with a clear, insulated cooler basin and tubing, digital controls, and a multi-use therapy pad. The Blue Cube has the ability to control the length of treatment time, up to 60 minutes, and adjust the intensity of the pressure by Liters Per Minute (LPM). The temperature monitor and the ability to see through to the ice levels means you always have your cryotherapy treatment in the correct range. The universal pad that is included with your machine is flexible and comfortable for many body areas such as the knee, shoulder, elbow and more. Whether you are using the Blue Cube for reduced inflammation, sports injuries, or following surgery, you'll have a comfortable recovery.

UNIVERSAL PAD:

Included with your Ice Machine is a universal therapy pad which can be utilized for a variety of body areas including the knee, shoulder, elbow, and more. The flexible pad and device have insulated tubing to keep temps cooler longer.

THERAPEUTIC COLD WATER MESSAGE:

The Cold unit blue cube cold therapy massage machine uses a continuous flow of cold water to provide soothing relief swelling and inflammation, joint pain and boosts post-workout recovery.

PORTABLE AND QUIET:

Designed for easy portability and storage, this compact ice therapy system has a quiet motor for a more pleasant recovery from sports injuries, shoulder surgery, or knee replacements.

EASY TO ADD ICE:

The insulated walls of the AIS Clear allow you to see the fill line easily as well as monitor the ice level in your machine. You'll know right away when it's time to refill the unit to keep the cool flowing.

DIGITAL CONTROLS:

The built-in LCD screen and adjustable settings give you an easy way to control the treatment time and motor intensity as well as monitor water temperature. Convenient easy to read controls are at your fingertips.
