Editor's note: *If you find products that work for you, please let us know by contacting Sondria Berman at sberman@scleroderma.org.*

Great Grips Faucet Grips

Great Grips Faucet Grips make turning the water on and off an effortless task for people with scleroderma or arthritis. Each package contains two Great Grips Faucet Grips per package, one red and one blue. They're also a big help in eliminating confusion of which faucet is hot and cold water. The bright red and blue color-coded faucets provide a great visual cue.

The Two Liter Bottle Handle

Handle those awkward two-liter bottles! This was designed by a product development firm with emphasis on applying the fundamentals of engineering. Our Two-Liter Handle makes it easier for you to pour from those large bottles. Fits standard two-liter bottles and is lightweight at only three ounces. It is made of durable polypropylene plastic and has a sturdy handle for easy pouring with a finger loop for carrying and passing.

Ergonomic Cooking Knife 7 ½"

These kitchen tools feature upright handles, which reduce the chance of wrist strain and injuries while performing kitchen tasks. This design increases leverage when cutting and promotes energy conservation so that wear on joints and muscles is minimized. The Plane Spatula protects the hand from accidental skillet burns. The Chef's Knife has a 7 1/2" (19 cm) blade. All of these tools feature stainless steel blades and are dishwasher safe.
